

How to sew knitted pieces together

- Pin knitted pieces together with right sides facing and matching up ends of rows.

- Start at right hand edge using either a tail end of yarn or a matching piece of yarn and make 2 stitches at edge to hold firmly.
- With yarn at front make a stitch through both pieces of knitting about 0.5cm to the left.
- Bring yarn to front of work by pushing needle through from back 0.5cm to the left and make 2nd stitch by pushing needle to back of work next to end of last stitch.

Repeat to left hand edge and fasten off securely with 2 stitches close to edge.
